Passionate cyclists and mountain bike enthusiasts know the feeling: The body is warmed up, the pulse has adapted to the rhythm of the pedals and the landscape is rushing by. Now you are truly alive. Hardly anything can top it – especially when it happens on holiday! Fast, leisurely or a combination: it's completely up to you.

More bike tips and routes: jufahotels.com/en/cycling-holidays

1. How about a little adrenaline?

Nature trails, jumps, modern mountain cable cars and the full flow: In Austria's largest bike region **Saalbach-Hinterglemm** (JUFA Alpenhotel Saalbach****) and in the legendary **Schladming Bike Park** on Planai (JUFA Hotel Schladming***), downhill bikers and mountain bikers will find more than just one trail that will put a smile on their face. Mount **Petzen in Carinthia** is a true bike El Dorado. 11.5 km of one of the longest flow trails in Europe are awaiting you (JUFA Hotel Bleiburg/Pliberk***).

2. Where families like to ride

The best routes for families are well maintained with a modest gradient. For example, the **Thaya River Bike Trail in Waldviertel** (JUFA Hotel Waldviertel***), where you can rack up the kilometres on former railway lines. If you would like to explore the **Mur River Bike Trail** from Salzburg all the way to south Styria, you should bike from one JUFA Hotel to the next. A total of seven are located along the trail. Young cyclists

can take their first mountain bike rides at **3Eiben Kids Bike Park** near Deutschlandsberg (JUFA Hotel Schilcherland***).

3. Great tastes straight ahead

You believe "the most enjoyable parts of a cycling tour are the stops?" If so, explore the gently rolling hills of the wine-growing regions. Enjoy the tastes and ambiance of cosy wine taverns in the picturesque **Weinviertel region** (JUFA Weinviertel – Hotel in der Eselsmühle****S) or on the **South Styrian Wine Road** (JUFA Hotel Leibnitz***). A bicycle trip in **Kempten im Allgäu****S** (JUFA Familienresort Kempten im Allgäu) is as gentle as a walk. A variety of culinary tours are waiting to be followed – on an e-bike as well.

Von Hier means “from here” in German. It stands for everything that comes out of the surrounding region at JUFA hotels. With over 60 locations in the heart of Europe and around 1,300 employees from 57 countries, JUFA hotels are a driving force in their respective regions. We stand for social responsibility for humans and the environment, sustainability and regional economic development.

Wood and natural materials from the immediate vicinity as far as the eye can see. Attractive modern architecture that blends into the landscape harmoniously. Our guests enjoy such a sight every day of their holiday. Brilliant examples of the use of regional wood and building materials are **JUFA Hotel Savognin***** (Switzerland) and **JUFA Hotel Laterns-Klangholzhus***** (Vorarlberg).

Since the area around our hotels is simply too beautiful to only be enjoyed outside, we like to bring it indoors with design elements that capture the unique features of the region. At the new **JUFA Hotel Weiz***** (Styria), a blue-eared sheep from Weiz has become our holiday ambassador.

Lively meeting places

People feel good when they stay with us. Want proof? Just talk to our satisfied guests

or our neighbours at our different locations. With multistorey children’s playgrounds, gyms, bowling alleys and inviting cafés, JUFA hotels are lively places where young and old like to meet.

Eat regionally

Around 650 small regional suppliers provide our hotel locations with regional delicacies. If you see our “Von hier” (From here) products at the breakfast and dinner buffets, you can rest assured: From Pöllau pears to Vorarlberg mountain cheese,

these fine specialties took the shortest route to the hotel. That’s how we make our own significant contribution to reducing distances, cutting down on CO₂ emissions and supporting the regional economy.

Two questions for JUFA founder Gerhard Wendl

What is the idea behind JUFA hotels?

Our motto “**Happy together**” stresses our focus on joy and being part of a “we”. We want to bring people together and leave behind a footprint that is as small and as positive as it can be.

What does sustainability mean to you?

Sustainability means that we think of the future every step of the way and follow an innovative path. Careful handling of natural resources is not a quick-lived trend. It is deeply anchored in our philosophy. For example, 13 years ago we opened the first passive house hotel in Austria, **JUFA Hotel Bleiburg/Pliberk***** in Carinthia.

Historical treasures

Would you like to swap a hotel room for a noble knight's chamber with a romantic bay window, where you spend your holiday as a damsel or the lord of the fortress and immerse yourself in long forgotten times?

Venerable walls have their charm, above all when they are given a new life. It is exactly this charming connection between historic flair and modern comfort that you can experience in JUFA hotels that are located in historic buildings.

Do you want to spend your holiday where the prince-bishops of Bamberg once resided? Then look forward to an unforgettable time at **JUFA Hotel Kronach – Festung Rosenberg****** in Bavaria. Whether at a traditional banquet for knights, on an evening tour of the city by lantern

light with Thomas the watchman or on a fortress tour, the past is alive and tangible. Want even more culture and history? The Franconian Gallery, a branch of the Bavarian National Museum, is housed in the fortress.

The baroque **JUFA Hotel Schloss Röthelstein/Admont***** is located at the gateway to Gesäuse National Park in Styria. With its quaint tower and gallery rooms, splendid arcaded courtyard and small chapel, it is perfect for romantic days for two – or for a glittering wedding reception against a unique backdrop.

Impressive – that is how to describe **JUFA Hotel Pyhrn-Priel***** in the heart of the Kalkalpen National Park region in Upper Austria. It is located right in the middle of the massive complex of Spital am Pyhrn Abbey. **JUFA Hotel Murau***** is housed in the oldest building of the JUFA chain where there was once a brewery during the Middle Ages.

Historical treasures

Tulsi Ayurveda at Stift Gurk Abbey

The impressive cathedral in Gurk is a powerful place that is unparalleled. Right next to it in the Tulsi Ayurveda Centre of **JUFA Hotel Stift Gurk******, historic church walls meet Ayurveda, the Indian art of healing.

An experienced team of Indian therapists led by director Preeti Hoffmann and Ayurveda practitioner Siddiq Salahudeen accompany guests on their way to holistic health. Delicious Ayurvedic cuisine, yoga sessions and authentic treatments are included.

Medicinal herbs and an individualised diet play a key role in Ayurveda. What luck that the abbey herb garden is located directly outside the hotel doors. When it is sunny, yoga sessions are taught against this fragrant backdrop. Find your way to silence by meditating in the chapterhouse of the abbey or the crypt of St. Hemma – it hardly gets more atmospheric than this.
